SHOWCASE
2026/2027

Focus on the key players in the
coating and web processing industry
with their services and products.

M2N converting SHOWCASE 2026/2027

Welcome to the world of the ConvertingPROs! Films and paper for flexible packaging, innovative roll-to-roll materials for battery production, as well as state-of-the-art coating and laminating processes are just a few major examples of what this essential industry can deliver to society.

Converting is ...

- ... an enabler of the mobility of the future
- ... delivering thinner films, functional barriers and paper alternatives for flexible packaging
- ... guaranteeing reliability and long shelf life in food and hygiene applications

Suppliers and machinery manufacturers in the coating and web processing industry are tackling these and other challenges head-on every day.

With the „M2N Converting Showcase“, we focus on the key players in our industry with their services and products.

Your benefits

- Showcase your services and competences in front of a broad audience of industry insiders and potential buyers!
- Make a statement as one of the technical outriders in the industry!
- Reach out to existing and new customers with full contact details on your profile!
- Profit from attractive online extensions for your company profile on the website and in the newsletter and on LinkedIn

What we deliver

- 10,000 print copies overall
- Send to the full distribution list of PRO Flexconvert and PRO Flextronics
- Distribution at numerous tradeshow and leading industry events
- Extensive digital distribution on our website, on LinkedIn and via e-mail
- More than an industry guide: High-caliber expert interviews in-between the company profiles

Available at
